

I am writing again in response to the issue of losing the KLOVE radio station in our community. I didn't realize we would totally lose this station. It would be such a BIG loss! It is the only station I listen to. It is so uplifting to me. Music is a large part of peoples lives & a great way to get their attention. The music is very appealing to all ages. I've listened to other Christian radio stations & their music & programing are dry. The radio personalities on KLOVE are interesting & upbeat. The staff knows how to get & keep your attention. Why would you want to take away something good? I am a supporter of this station as are many others here. Why would you take away a station that is being supported by it's listeners? There are no paid advertisers on this station so obviously the listeners want the station on the air! PLEASE don't remove KLOVE from our community. Thank you!
